Summary

It's been 2 years since I started learning the Java programming language in depth. My passion for the ever-growing world of technology and innovation makes me aware of the latest trends and developments in it. I am dedicated to constantly improving myself and aim to regularly update my knowledge base with the most relevant information and concepts.

Having increased my experience in Java, I created my own team and together we cooperate in interesting startup projects. My ability to work effectively in a team and communicate clearly is a wealth that contributes to our team success.

Experience

Menor

iSystem IT Academy

Nov 2023 - Present (6 months)

I am a teacher, I started my tutoring job at iSystem It Academy, now I and my teacher are very passionate about teaching students, in the future I want to achieve more results through learning and training, the training processes are carried out at the main stage. Next, we want to work intensively and creatively on PostgreSQL, Spring Circle, Spring loading, spring and many other projects, and we will try to do it. Of course, thanks to my teachers for these results, I am very grateful to them.

Advisor

PDP University

Oct 2023 - Dec 2024

I'm currently a 2nd year at PDP Universty and I'm gaining experience as a 1st year advisor, I have big goals for the future and I'm slowly achieving them
